## ART MEETS

[https://play.google.com/store/apps/details?id=com.nona.artmeets&hl=en\\_ZA](https://play.google.com/store/apps/details?id=com.nona.artmeets&hl=en_ZA)

The Art Meets app is an app that provides a service to tourists, public, galleries, institutions and art industry professionals connecting buyers, researchers and cultural tourists with artists and art spaces/events. The app is an interactive map which uses landmarks to provide information on galleries, artist studios etc. so that users can navigate to them. Uber is an integrated function and other public transport methods, as well as payment portals for artwork sales will be integrated. In the next phase of development gallery-goers, art studio visitors and Art Fair visitors will also be able to store information (documents/video/images) at each studio/booth/gallery through nfts or QR codes.

## LINGO LOCATE

www.lingolocate.com

Lingo Locate is AirBnB plus Meetup.com for languages. We are an online marketplace for language learning. Learners search and book language schools, tutors, language exchanges and conversation partners. We combine formal tuition with free social learning, and build language learning communities, locally and online.

## KWEZA TECHNOLOGIES

www.kweza.co.za

Kweza is a last-mile distribution solution that provides We provide efficiency and convenience to informal retailers. Through our mobile app retailers access the best price in the market for their inventory as well as efficient and cost-effective delivery directly to store. We are on a mission to help informal retailers formalize digitize and grow.

### KLEVA CONTRACTS (PTY) LTD

Legal is one of the most important aspects of risk managing a business but the most neglected due to the exorbitant cost associated with lawyers. Many entrepreneurs recycle contracts from friends or do an online search and use an agreement that isn't right for their needs. Kleva contracts understands that high quality, tailored legal documents and access to lawyers in a friendly manner should be something every business owner has access to.

### ICALC TRAINING ACADEMY

<http://www.icalcta.co.za>

We offer engineering training to those that want to qualify in a trade or go on to become an engineer. It forms part of the NATED programme accredited and registered with the Department of Higher Education and Training as well as SAQA. The college offers employment as well as opportunities for students who would otherwise not have. This additional platform that

we would like to introduce would give the student access to a E-learning platform that will give a visual and practical component that will be modular in nature thus allowing the student to complete the practical aspect online. Engineering trade qualifications are scarce in South Africa and this blended learning opportunity will occupy a very needed space.

### HYHARVEST (PTY) LTD

The population in the Townships is growing and great local restaurants and stores want to sell fresh produce to their customers. The challenge they face is consistent supply of produce from farmers that is in good quality, longer shelf- life and good nutritional value, especially leafy greens. While on the other hand stocking leafy greens in bulk is not ideal for their business as they have a lot of waste or they end up having to spend a lot on logistic if they decide to buy in small quantities.

### QP DRONE TECH

[www.qpdronetech.co.za](http://www.qpdronetech.co.za)

We manufacture Fixed wing drones with a VTOL in South Africa. We are building drones that are all weather resistant, long battery life with a dual camera.

### AFROBOTIX (PTY) LTD

<https://afrobotix.com/>

AFROBOTIX is a tech company that leverages artificial intelligence (AI), data science, big data and analytics to extract actionable business insights. AFROBOTIX offers data analytics as a service through the holistic automation of data science. An AI-powered system can clarify the importance of each data point on a granular level, and help business executives understand how that

data can translate into real business decisions. AFROBOTIX has built and continues to build algorithms that conduct analyses and generate business insights using machine learning.

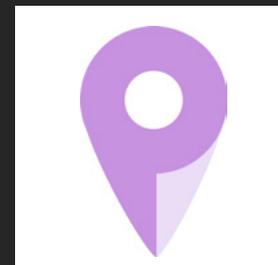

### ECOHOME

[www.ecohome.education](http://www.ecohome.education)

EcoHome is a collectable series of eco-friendly and sustainability items that are placed into a home frame, showing how children can build a home using earth-savings materials. So how do we do this? We focus on the youth. The EcoHome brings the principles of sustainable living into the home by making these concepts tangible to children and their families. It

inspires and educates by showing that eco-concepts can be explored in fun and enjoyable ways which helps to maximise engagement and start to shift perceptions about how crucial it is to look after our planet.

### PRIMU INFOTECH

<https://www.prim-u.com>

An on-demand technology platform that optimises booking capacity, usage and by minimising under-used space for professionals thereby speeding convenience for consumers. The platform is providing opportunities for SMEs who are therapists or hairstylists or nail technicians to run their small businesses with support from the Prim-U platform. This is by doing the

marketing on their behalf, collecting payments upfront using a reliable payment gateway and giving them the flexibility to decide on services, prices and schedules.

## MONEYWORKS FINANCIAL SERVICES

[www.moneyworksfs.co.za](http://www.moneyworksfs.co.za)

MoneyWorks is a Digital Supply Chain Finance Platform developed to address access to financing challenge faced by most SMEs. The platform enables large and medium sized corporates to have an early payment programme for the benefit of SMEs in their supply chain. The solution provides SMEs access to invoice financing on the back of their buyer's credit record, thus reducing the late payment and cashflow shortage risk faced by most SMEs.

## VEDIC MATHS

[www.vedicmathsafrica.com](http://www.vedicmathsafrica.com)

Vedic Maths is an Ancient Indian System of Mental Maths and Speed Calculations. It has found great acclaim for the speed and accuracy with which students can calculate seemingly complex calculations like  $94 \times 97$  mentally. College students are also using it to prepare for SATS GMAT. Vedic Maths Africa has created materials and courses that are directly applicable to the South African student and curriculum.

## TJOPTJOP

[www.tjop-tjop.com](http://www.tjop-tjop.com)

TjopTjop is a mobile app developed to assist schools, businesses, and other institutions to easily collect and store health screening information from students, pupils, staff and clients. It saves time and effort at the screening stations, makes stored data available to the relevant people who need to view the summarized data and act proactively when the results are out of range.

## WEALTHSPACES

[www.wealthspaces.co.za](http://www.wealthspaces.co.za)

WealthSpaces partners with partly under-utilised restaurants, cafés and hotels. They make themselves available for co-working guests in exchange for a revenue share and increased trade. Member value-adds like parking, wifi and coffee are included, and the whole process is managed digitally, all at a small fraction of the cost of a co-working hot desk.

## UKU'HAMBA

Uku'hamba (Pty) Ltd produces light weight prosthetics to improve the conditions of amputees living with disabilities thus giving them back their independence.

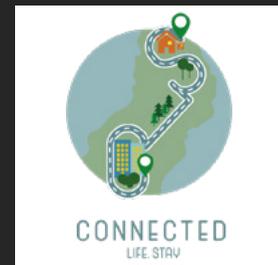

Uku'hamba (Pty) Ltd has identified the challenge faced by amputees. The demand for prostheses exceeds the supply a very large margin and the cost of prosthetic's very high. Prosthetics are custom-made, water-resistant and low cost. Our core business is in the bio-technology and health care manufacturing.

## MYFUELREWARDS

[www.ecohome.education](http://www.ecohome.education)

MyFuelRewards is a fuel and drivers' spend aggregator, powered by Zamlim in partnership with Shell Downstream SA. We are currently tapping into the 3 million litres per month and R3.2 billion financial services spent by e-hailing drivers across SA.
