**SFG Technologies** | Andrew Pott – CEO

We manufacture a flat-packable, self-watering vegetable grower box (SFG Box) and have developed an App (SFG App) that helps to educate and inspire people to grow high crop yields in their SFG Boxes. The App enables user-groups to be set up for different clients. The aim is for Governments, Companies, NPOs, Foundations etc to buy SFG Boxes, and App licenses which they then donate to beneficiaries of their choice.
